

AI/ML Mini Project Submission Format

1. Cover Page

- Project Title
 - Student Name
 - College Name
 - Branch & Year
 - Email / Phone Number
 - Submission Date
-

2. Project Overview

Problem Statement

Explain the selected project problem in 4-5 lines.

Objective

What is the main goal of the project?

Technologies Used

Example:

- Python
 - TensorFlow
 - OpenCV
 - NLTK
 - Streamlit
-

3. Dataset Details

- Dataset Name
 - Dataset Source (Kaggle / Custom Dataset)
 - Number of Records or Images
 - Dataset Link
-

4. Project Workflow

Explain the steps followed in the project.

Example: 1. Data Collection 2. Data Preprocessing 3. Model Training 4. Testing 5. Result Prediction 6. Deployment (Optional)

5. Model / Algorithm Used

Mention the algorithms or models used.

Examples:

- BERT
- CNN
- ResNet50
- Logistic Regression
- Random Forest

Explain briefly why you selected it.

6. Implementation

Add:

- Important code snippets
 - Screenshots of output
 - Training process screenshots
 - Accuracy / Results
-

7. Results

Mention:

- Accuracy
 - Output Predictions
 - Graphs or Charts
 - Performance Analysis
-

8. Challenges Faced

Write 3–5 points about difficulties faced during development.

9. Conclusion

Summarize:

- What was achieved
 - Future improvements
-

10. References

Add:

- Dataset links
 - Documentation links
 - YouTube / Articles referred
-

11. Submission Files

Students should upload: 1. Project Report (PDF) 2. Source Code ZIP File 3. Screenshots / PPT (Optional)

File Naming Format: Name_ProjectTitle.pdf Example: Rahul_FakeNewsDetector.pdf
